A Word About Coffee.

Anybody can roast Coffee, but it stands to reason that in order to obtain best results and perfect flavors, the roasting must be done under the direction of an expert coffee blender. Such men demand large salaries and could not be employed by such small concerns as exist in small towns; their salaries range from two to six thousand dollars per year. Now I buy my Coffee from one of the largest concerns in the world. They can afford to pay any price for a coffee blender. The quality is always the same, the flavor never changes. Once you use my Coffee you will always use it. It costs but little more than cheap Coffee, goes farther and tastes better.
